PROFESSIONAL SUMMARY

Results-driven PHP Laravel Developer and MCA graduate (2025) with hands-on production experience building and maintaining a live MLM-based e-commerce platform serving 100–500 active users. Skilled in Laravel MVC architecture, multi-level commission engines, referral hierarchy management, RESTful API development, and MySQL database optimisation. Strong collaborator in agile teams with additional proficiency in React.js frontend integration and Git-based version control.

TECHNICAL SKILLS

Backend: PHP, Laravel, Node.js, Express.js, Java, Spring Boot

Frontend: React.js, HTML5, CSS3, Bootstrap

Databases: MySQL, MongoDB, SQL, Relational Database Design

Languages: JavaScript, Python, Java, C

Concepts: REST API Development, JWT Authentication, MVC Architecture, MLM Commission Logic, E-commerce Systems, Agile, Scrum

Tools: Git, GitHub, VS Code, Postman

WORK EXPERIENCE

PHP Laravel Developer | Bpract Software Solutions — Calicut, Kerala

May 2025 – Present

- Architect and maintain backend modules for a live MLM-based e-commerce platform serving 100–500 active users, implementing multi-level commission calculation engines, downline tracking, and referral hierarchy management using PHP and Laravel.
- Designed and developed complex business logic for product ordering, payment workflows, and multi-tier user hierarchy systems, ensuring accurate commission distribution across 3+ network levels.
- Built and optimised MySQL database schemas and queries to handle interconnected commission, inventory, and transaction data for a live production system, improving query efficiency by 30%.
- Contributed to frontend development using React.js, building and maintaining UI components integrated with RESTful backend APIs, reducing page load inconsistencies by 25%.
- Collaborated with cross-functional teams across agile sprints — planning, development, code review, and deployment — using Git and GitHub for version control.

MERN Stack Developer Intern | Ipx Technologies — Cyberpark, Kozhikode

Feb 2025 – May 2025

- Built and maintained 5+ scalable web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack) within a professional agile team environment.
- Integrated third-party RESTful APIs across multiple projects and resolved 20+ bugs across frontend and backend layers, improving overall application reliability and uptime.
- Applied Git version control best practices in a collaborative team environment, contributing to shared codebases on GitHub with consistent code review participation.

PROJECTS

Live demos and source code available at: portfolio-hanna.vercel.app | github.com/Hannasherin7

EcoHarvest — MERN Stack, Python (ML Integration)

- Architected a full-stack e-commerce platform connecting farmers with consumers for organic produce, featuring ML-based crop yield prediction, order tracking, recipe sharing, and farmer blog modules.

DSA Visualizer — Java, Spring Boot, React.js, REST API

- Designed an interactive DSA learning tool with step-by-step visualisations of Bubble Sort, Binary Search, Stack, Queue, Circular Queue, and Linked List, backed by a Spring Boot REST API.

Apartment Management System — *React.js, Node.js, Express.js, MongoDB*

- Developed a role-based web application for apartment residents and admins to manage events, complaints, and notices with JWT-based secure authentication.

Fitness Tracker — *MERN Stack*

- Built a user-centric fitness application for logging workouts, setting goals, monitoring caloric intake, and visualising progress through dynamic charts.

FISAT College Bus Pass Booking — *MERN Stack*

- Delivered an online bus pass management system with booking, cancellation, admin controls, and secure JWT-based login for college students.

EDUCATION

Master of Computer Application (MCA) | FISAT, Angamaly

Jun 2023 – May 2025 | CGPA: 8.27 / 10

Bachelor of Computer Science (BCS) | MCAS Moodadi, Kozhikode

Jun 2020 – Apr 2023 | CGPA: 6.66 / 10

CERTIFICATIONS

- SQL and Relational Databases — IBM
- Learn Java Programming: Beginner to Master — Udemy
- Introduction to Data Science — Infosys Springboard
- Python Django Internship Certificate — Bluegen Solutions
- MERN Stack Application Development — Link Ur Codes & Department of Computer Applications, FISAT
